

SHE CAME NEAR GIVING UP HOPE

Evansville Woman, After
Suffering Fifteen Years, Is
Restored to Perfect Health.

"If I talked from now to the end of my days I couldn't say half the good things I think Taniae deserves," said Mrs. Louis McWilliams, 509 Fifth Ave., Evansville, Ind.

"It brought me perfect health after I had almost given up all hope. For fifteen years I had a bad form of stomach trouble, and I shudder now to think of the awful hours of agony I spent as the result of indigestion. Sometimes the attacks were so violent I would faint and fall to the floor. My back hurt me a good deal and my kidneys bothered me almost continually. My left side hurt me too, and at night I hardly got any sleep at all.

"I certainly appreciate the blessings Taniae has brought me. I eat anything I want now and everything agrees with me. I have gained twenty-five pounds too, and am back to my normal weight. To put my case in a few words, I am entirely well. I feel that there is nothing good enough for me to say about Taniae."

Taniae is sold in South Bend by the Central Drug Store. —Adv.

INVOKES NEW LAW AGAINST 'BLUE SKY'

Pros. Jellison Charges Oil
Company Violates State
Statute Here.

What is termed by Pros. Floyd O. Jellison as the forerunner of a number of criminal prosecutions for violation of the Indiana securities law has been started in circuit court with the filing of an affidavit against A. Schoenberg, J. Somers and A. Lipsey, Bartlesville, Okla., officers and agents of the Three Link Oil & Gas Development Co., of that city.

Stephen and Helen Switalski, Lincoln way, proprietors of a bakery, are the complaining witnesses. The defendants are alleged to have sold the Switalskis 100 shares of stock in the development company at \$10 per share when the corporation was not registered with the secretary of state and the Switalskis did not hold certificates to sell the stock. This is in direct contradiction to the provision of the securities law, the prosecutor claims.

The affidavits filed in circuit court Thursday were prepared by Deputy Alador Hanzowski. Pros. Jellison said that a number of inquiries would be instituted this summer and fall to take the sky out of the "blue sky" promotion schemes which, he said, during the past year and since the time the state provided protection for its citizens, has cost investors heavily.

"Ruthless stock salesmen who have fleeced South Bend people out of thousands of dollars will be prosecuted if this department can obtain evidence," said Mr. Jellison Thursday. "The information either will be laid before the grand jury in the fall or, if the violations continue, affidavits will be filled as rapidly as evidence can be obtained.

"It is no longer necessary for Indiana folk to suffer at the hands of stock manipulators and promoters. The state offers ample protection through the new securities law, and it is the purpose of this department to give as much protection from these worthless schemes as possible."

As yet the three agents and officers of the Three Links Oil & Development Co., have not been arrested. Sheriff L. B. Duck today wired Bartlesville, asking the sheriff of that city to arrest them until a warrant can be served and, if necessary, extradition procured.

MAY REWARD MAN WHO SAVED GIRL

NIAGARA FALLS, N. Y., July 7. —A movement has been started to obtain Carnegie medals and prizes for Douglas Moodie and Fred Smith, both of this city, who officials of the Niagara State Reservation credit with rescuing Mrs. Joseph Haines from the river 109 feet above the brink of the American falls. Moodie is the modest hero who waded out into the stream and brought the woman to shore and then disappeared in the crowd, refusing to give his name. Smith aided him in the rescue.

MANY INJURED IN AUTO ACCIDENT

NEW YORK, July 7.—Fifty-two persons were injured, two of them

perhaps fatally, when a sight-seeing bus skidded and overturned early today near Coney Island. Twenty-seven women numbered among the passengers suffered shocks and hysteria. The accident occurred when the bus chauffeur, John Callahan, made a sharp turn to avoid collision with a touring car.

"One of the Greatest Economic Problems Is Dis- tribution"

PRESIDENT HARDING in a recent address declared that "one of the greatest economic problems, if not the greatest, is distribution. There can be no doubt of the position of the good roads movement in the solution of the problem. I believe that Federal and State Governments must not only create good roads but they must insist upon the maintenance of good roads. A good road gone wrong is a streak of memorial to neglect and waste. The roads we build must be built for use in the distribution of products rather than for merely pleasure riding. We must foster the use of motor trucks."

The expression of the chief executive of our nation is but a confirmation of the experiences of the Standard Oil Company (Indiana) in the conduct of its business.

The problems of distribution are of paramount importance and in effecting this distribution, good roads are a primary essential.

The Standard Oil Company (Indiana) has in operation more than 4000 motor trucks engaged in distributing gasoline, kerosene and lubricating oils to ultimate consumers in 11 Middle Western States. It is the business of this department to attempt to furnish Standard Oil products to whoever may require them, wherever he may live.

To supplement the tank wagon, the Standard Oil Company (Indiana) maintains a network of service stations, located on the main traveled highways, every few miles in the country and every few blocks in the city.

Through its highly specialized organization, the Standard Oil Company (Indiana) manufactures from crude petroleum the three factors necessary to a solution of the problems of distribution.

Stanolind Paving Asphalt for good roads—enduring roads.
Red Crown, the high-grade gasoline, for power—tremendous power.
Polarine, the perfect motor oil, for lubrication—correct lubrication.

In the manufacture of these products, the Company has set as a measure of value, specifications which it believes insure the user the utmost of service at a minimum of expense. Its products are made to exact standards, and these standards are based upon a careful, exhaustive study of the conditions under which they will be used. All are uniform in quality and go to the consumer with the Company's guarantee that they are exactly as represented.

BUG-OLOGY

What do you call them?

Bedbugs (Cimex lectularius). The origin of the name bedbug is unknown, but is supposed to be naturally suggested as it is descriptive. There are many local names for these parasites, as for illustration, around Boston they are called "Chinches," from Baltimore comes the name "Mahogany Flat," in New York they are styled as "Red Coats," around Pittsburgh they are called "Peaky Devils," in Cincinnati and the south "Night Riders," in St. Louis and Chicago district "Crimson Rambles," the great West "Pilgrims." The old saying, "The bedbug has no teeth, but they get there just the same," is correct. Instead of teeth they possess a piercing and sucking beak to draw and rob you of your blood for their own body.

Bedbugs, no matter what you may call them, or where they came from, science has found a way to rid them if you will use faithfully the new chemical Pesky Devils Quiescent "P. D. Q." A 25c package makes one quart, enough to kill a million bedbugs, reaches, fleas, ants or roaches, and their eggs as well. P. D. Q. will not injure bedding, and each package contains a patent sprout to enable you to get them in the hard-to-get-at places. Impossible for Pesky Devils to exist here P. D. Q. is used.
